PayTrace GO

We know your business never stops. PayTrace GO runs at your pace. The app offers full virtual terminal access, accepting merchant transactions on the go and managing those same transactions in the office.

Our encrypted card reader is secure, giving you access to reports from the field. As always, PayTrace GO lowers your processing costs with access to Level II and Level III processing.

Features

- Swiped & keyed sales transactions
- Web application with reporting
- Email receipts
- Add invoice numbers
- Signature capture
- Mobile encrypted card reader
- Compatible with most iOS & Android devices
